

Description

Night Birds Exterior are identical to the original interior collection, which was inspired by the freedom of bird flight. To withstand varying weather conditions, the lights have been modified to comply with the IP54 rating for outdoor use.

Tech. description The light comprises a metal body with GZ10 socket, a dural cap, silicone power cord, and a stainless-steel ceiling canopy. The entire assembly is IP54 compliant. The glass component is suspended from the metal body. In turn, the light assembly is suspended from the ceiling canopy.

PRODUCT LIST

Name NIGHT BIRDS PENDENT EXTERIOR

Type pendent lamp, outdoor lamp

ID PC1113

Description The Night Birds collection by Boris Klimek is now available in a new version suitable for exterior use. Night Birds Exterior are identical to the original indoor collection, which was inspired by the freedom and abandon of bird flight. In order to withstand the whims of the weather, the lights have been modified to comply with the IP54 rating for exterior use, namely by enlarging and weatherproofing the positionable hand-polished dural body, which conceals a sophisticated balancing mechanism and the subtle LED light source. The bigger, more robust metal body also allows for a greater selection of light sources. Like the original Night Birds collection, Night Birds Exterior offers three different lights, each with a different wing position, which come in either white or dark (nearly black) variants. From now on, Night Birds are as home in the elements or the dark of night as they are in the comfort of the indoors.

Technical description The technologies applied in the Night Birds collection are based on the principles of recycling, sustainability, and environmentally friendly manufacturing. The base material used in the lights is the waste glass generated in the production of other Brokis collections. This recycled glass material is subjected to several stages of processing using older glassmaking techniques (hand grinding, sandblasting) as well as newer ones (melt moulding, waterjet cutting, mould shaping), giving rise to a skilful blend of tradition and modernity. Each light is an unrepeatable original with its own story.
