Ceiling or wall lamp made of a circular metal plate and a base for wall or ceiling mounting

ABOUT

Lampada a sospensione, soffitto e parete con diffusore in metallo verniciato a polveri epossidiche di spessore molto sottile. La versione decentrata, presenta un sistema di fissaggio a soffitto versatile che permette di illuminare anche in assenza di punti luce predisposti a soffitto. I decentratori in metallo infatti, permettono al filo elettrico di scorrere per portare la luce dove occorre. Grazie alla sua essenziale forma, la luce si diffonde uniformemente in tutto l'ambiente.

Suspension, ceiling and wall lamp with a thin metal powder coated diffuser. The decentrate version has a versatile ceiling mounting system allowing to illuminate even in absence of electrical connection on the ceiling. In addition, the metal decentralizers allow the wire to slide to bring the light where it is needed. Thanks to its essential form, the light spreads evenly throughout the environment.
